

P.U.(A) 328/86
FACTORIES AND MACHINERY (BUILDING OPERATIONS AND WORKS OF ENGINEERING
CONSTRUCTION) (SAFETY) REGULATIONS 1986
PART IV - STRUCTURAL STEEL AND PRECAST CONCRETE ASSEMBLY

Regulation 38. Temporary flooring---skeleton steel construction in tiered buildings.

- (1) The erection floor shall be solidly planked over its entire surface except for excess openings. Planking shall be of adequate strength to carry the working load and shall be laid tight and secured to prevent movement.
- (2) There shall also be provided a closely boarded and substantial floor within two storeys or 8 metres, whichever is less, below and directly under the portion of each tier of beam on which bolting, rivetting, welding or painting is being done.
